

# Don't let the **BED BUGS BITE**

## What are Bed Bugs

Bed bugs are small, reddish-brown insects.

## Bed Bugs Facts

Most bed bugs are chemical resistant.

Bed bugs feed on the blood of animals and humans.

Bed bugs are found in offices, schools, hospitals, homes theaters & stores.

## Where do Bed Bugs live?

Bed bugs are typically found in mattresses, box springs, & bedding, but are also found in furniture, carpeting, luggage, clothing, toys, pet's beds, behind wallpaper and even a bus or car.

## Bed Bugs Prevention

Inspect secondhand furniture before bringing it home.

Use protective covers on mattresses & box springs.

De-clutter. Clutter provides hiding places for bed bugs.

Be cautious when using shared laundry facilities. Transport clothes in sealed plastic bags & use the highest heat setting possible to dry clothes.

Inspect secondhand clothing for signs of bed bugs.
